IN THE HIGH COURT OF JUSTICE OF NIGER STATE
MINNA JUDICIAL DIVISION
HOLDEN AT MINNA

SUIT NO: NSHC/09/2025

BETWEEN:

1. **ABUBAKAR MOHAMMED MAIGIDA**
   (For himself and on behalf of Guzan Community)
2. **MUHAMMAD KUDU** ..... **PLAINTIFFS**
   (For himself and on behalf of Wuchi Community)

AND

MAINSTREAM ENERGY SOLUTIONS LIMITED ..... **DEFENDANT**

DEFENDANT'S STATEMENT OF DEFENCE

The Defendant, Mainstream Energy Solutions Limited (hereinafter referred to as "the Defendant"), in response to the Plaintiffs' Statement of Claim, states as follows:

1. The Defendant denies each and every allegation of fact contained in the Statement of Claim as if each of the averments are set out seriatim except those expressly or specifically admitted herein.
2. The Defendant avers that averments in paragraphs 4, 5, 6 and 7 of the Statement of Claim is solely within the knowledge of the Plaintiffs and are put into the strictest proof of their representative capacity.
3. The Defendant avers that in response to the averment in paragraph 6 of the Statement of Claim, the Defendant adequately notified all residents along the river route and that the Defendants have failed to take cognizance of climate change and its attendant effects on humanity and general ecosystem
4. The Defendant denies the averment in paragraphs 8 to 12 of the Statement of Claim and put the Plaintiffs into the strictest proof of their averment thereof.

5. In specific denial of paragraphs 8 to 12 of the Statement of Claim, the Defendant states that it has at all material times carried out its operations, including the regulated release of water from the Kainji and Jebba Dams, in strict adherence to:

   a) All applicable environmental and operational safety standards,

   b) Statutory and regulatory obligations, and

   c) Professional guidelines issued by the Nigerian Hydrological Services Agency (NIHSA), the National Emergency Management Agency (NEMA), and other competent authorities.

6. The Defendant states that water discharge operations in January and April 2025 were:

   a) **Scientifically advised** and technically necessary to maintain structural integrity and prevent dam failure;

   b) **Systematically implemented** based on real-time hydrological forecasts; and

   c) **Preceded by public warnings and sensitization** campaigns duly broadcast via radio, television, and public service announcements across Niger State and neighbouring communities.

7. The Defendant shall found on the data of the systemic and controlled release of water from the dam for the month of January and April at the trial of this Suit.

8. The Defendant shall also found on the radio and television jingles for sensitization, billboards, posters, leaflets and receipt of payments to media organisations before systemic and measured release of water from the dam at the trial of this Suit.

9. The Defendant avers that all communities located downstream of the Jebba Dams were adequately and timely informed of the intended water releases and the associated risks.

10. The water from the dam at any point was released in specific measure per cubic meter (cumec) in accordance with regulated capacity and specification.

11. For instance, after the January 2005 flooding, the Niger State Government invited the Defendant and the Defendant made proper representation to the satisfaction of the Niger State Government. The Defendant shall found on the letter of invitation from the Niger State Government dated 6th March 2025 and the letter of response from the Defendant with its attachment showing data for systemic release of water from January to March 2025 at the trial of this Suit.

12. Around same time, the Defendant was at the National Assembly to make similar presentation to the satisfaction of the Panel.

13. The Defendant denies the averment in paragraph 13 of the Statement of Claim and put the Plaintiffs into the strictest proof of the averment thereof.

14. In further response to the averment in paragraph 13 of the Statement of Claim that the dams and turbines are designed to release water at any time of the year in a systemic manner once there is overflow of water that is capable of bursting the dam or hampering the turbines and it is not limited to August or any specific moth of the year and that the stakeholders, local authorities and the farming communities are carried along always through adequate information and sensitization.

15. The Defendant shall found upon the jingle at radio/television stations, pictorial evidence of banners, receipt of payment to radio and radio/ television, letters to communities and leaflets of sensitization about prospective release of water from the dams at the trial of this Suit.

16. The Defendant avers that first part of the averment in paragraph 14 of the Statement of Claim is solely within the knowledge of the Plaintiffs and are put into the strictest proof of it and denies the second part of paragraph 14 of the Statement of Claim.

17. In further response to the second part of paragraph 14 of the Statement of Claim that the Defendant is stickler for professionalism, due diligence and people centric in its approach to business.

18. The Defendant denies the averment in paragraph 15 of the Statement of Claim and put the Plaintiffs into the strictest proof of the averment thereof.

19. In response to paragraph 16 of the Statement of Claim, the Defendant avers that it is not in a position to compensate for any damage it did not cause and did not release water without due diligence and in accordance with international best practices. The Defendant shall found on the letters from the Solicitors from both parties already pleaded by the Claimant at the trial of this Suit.

20. The Defendant contends that any damage allegedly suffered by the Plaintiffs resulted from:

    a) Their **continued occupation of flood-prone areas,** in contravention of advisory notices and relocation guidance issued by government authorities due to the alluvial nature of the water route to agriculture/farming and/or

    b) The **natural seasonal overflow of the River Niger,** a transboundary water body spanning over 4,000 kilometers, whose upstream and downstream dynamics are not wholly within the control of the Defendant.

21. The Defendant states further that the River Niger is subject to **complex hydrological influences,** including rainfall patterns across West Africa and water flow from multiple tributaries or downstream, over which the Defendant exercises no authority and the release of water from other countries on the line of flow of the water body particularly the Lagdo dam in Cameroun.

22. The Defendant categorically denies liability for the sum of **₦5,000,000,000.00 (Five Billion Naira)** or any other sum whatsoever and states that the claims for damage are:

    a) **Grossly exaggerated,** speculative, and unsupported by empirical evidence;

    b) Based on **misrepresentation of facts,** and

    c) Motivated by an **intent to extract unwarranted compensation.**

23. The Defendant avers that the Niger State Government has already engaged with the Defendant on this matter, and the Defendant has **provided full disclosures and cooperation** in good faith. The Defendant shall found upon its correspondence with Niger State Government at the trial of this Suit.

24. The Defendant avers that it has invested substantially in community relations, environmental responsibility, and downstream flood management projects, and that its corporate reputation has been unfairly targeted by the Plaintiffs' public claims and litigation.

WHEREFORE, the Defendant prays this Honourable Court to:

1. Dismiss the Plaintiffs' claims in their entirety as lacking in merit; frivolous; vexatious and gold digging.

2. Award substantial costs in favour of the Defendant; and

3. Make such further or other orders as this Honourable Court may deem fit in the circumstances.

Dated this 21 day of September 2025.

WRITTEN STATEMENT ON OATH MR AYODEJI CORNELIUS AKANDE

I, **AYODEJI CORNELIUS AKANDE**, adult, male, Christian, employee of the Defendant and Nigerian Citizen of 6 Yedseram Street, Maitama, Abuja, do solemnly and sincerely make oath and state as follows:

1. I am an Hydrologist and the head of Hydrology Department in the employment of the Defendant herein and by virtue of which position I am conversant with the facts of this case.

2. I have the Defendant's authority and consent to depose to this statement on Oath on its behalf.

3. I have read and understood the Defendant's Statement of Defence and the facts deposed herein are within my personal knowledge, except where otherwise stated.

4. I have practiced as a Hydrologist for 29 years in various capacity with proper qualification and certification.

5. There had never been a time that the Defendant released water arbitrarily and without system control from any of its dams with adequate warning and sensitization to the general public.

what did you by arbitrarily. that means you release the water

6. The Defendant has always adequately notified all residents along the river route and that the Plaintiffs have failed to take cognizance of climate change and its attendant effects on humanity and general ecosystem.

7. The Defendant has at all material times carried out its operations with adequate care and diligence, including the regulated release of water from the Kainji and Jebba Dams, in strict adherence to:

    a. All applicable environmental and operational safety standards,
    b. Statutory and regulatory obligations, and
    c. Professional guidelines issued by the Nigerian Hydrological Services Agency (NIHSA), the National Emergency Management Agency (NEMA), and other competent authorities.

8. The water discharge operations of January and April 2025 were:

    a. **Scientifically advised** and technically necessary to preserve the structural integrity of the dams and prevent catastrophic failure;
    b. **Scientifically implemented based on real-time hydrological forecasts and analyses from my department;**
    c. Preceded **by sensitization** campaigns and public warnings issued via radio, television, billboards, leaflets, and direct community engagement.
    d. **natural seasonal overflow of the River Niger,** a trans boundary water body spanning over 4,000 kilometers, whose upstream and downstream dynamics are not wholly within the control of the Defendant.

9. The water from the dam at any point was released in specific measure per cubic meter (cumec) in accordance with regulated capacity and specification.

10. For instance, after the January 2025 flooding, the Niger State Government invited the Defendant and the Defendant made proper representation to the satisfaction of the Niger State Government.

11. Around same time, I was at the National Assembly to make similar presentation on behalf of the Defendant to the satisfaction of the Panel.

12. The dams and turbines are designed to release water at any time of the year where overflow may pose a risk to dam safety or turbine operations, and

such releases are not restricted to August or any particular month. The stakeholders, local authorities, and farming communities downstream are always carried along through timely notifications and sensitization measures before any controlled release of water.

13. The Defendant placed jingles on radio/television stations, and have pictorial banners, did letters to communities and leaflets of sensitization about prospective release of water from the dam.

14. Any damage allegedly suffered by the Plaintiffs was occasioned either by:

    a. Their continued occupation of flood-prone areas despite advisory notices and relocation guidance, or

    b. The natural seasonal overflow of the River Niger, and not by any negligent or wrongful act of the Defendant.

15. The Defendant has invested substantially in downstream flood management, environmental responsibility, and community relations, and maintains a professional and people-centric approach in its operations.

16. The Defendant contends that the alleged damage suffered by the Plaintiffs might have resulted from:
    a. Their **continued occupation of flood-prone areas,** in contravention of advisory notices and relocation guidance issued by government authorities due to the alluvial nature of the water route to agriculture/farming and/or

    b. The **natural seasonal overflow of the River Niger,** a transboundary water body spanning over 4,000 kilometers, whose upstream and downstream dynamics are not wholly within the control of the Defendant.

    c. The flooding might have even been caused flows from downstream tributaries.

17. I know as a fact that the River Niger is subject to **complex hydrological influences,** including rainfall patterns across West Africa and water flow from

multiple tributaries or downstream, over which the Defendant exercises no authority and the release of water from other countries on the line of flow of the water body particularly the Lagdo dam in Cameroun.

18. The Defendant categorically denies liability for the sum of **₦5,000,000,000.00 (Five Billion Naira)** or any other sum whatsoever and states that the claims for damage are:

    d) **Grossly exaggerated,** speculative, and unsupported by empirical evidence;

    e) Based on **misrepresentation of facts,** and

    f) Motivated by an **intent to extract unwarranted compensation.**

19. The Niger State Government has already engaged with the Defendant on this matter, and the Defendant has **provided full disclosures and cooperation** in good faith.

20. The Defendant has invested substantially in community relations, environmental responsibility, and downstream flood management projects, and that its corporate reputation has been unfairly targeted by the Plaintiffs' public claims and litigation.

21. The sum of ₦5,000,000,000.00 (Five Billion Naira) claimed by the Plaintiffs is Grossly exaggerated, speculative, and unsupported by empirical evidence.

22. The claims of the Claimant are gold-digging, blatant, ungroundable, obnoxious, bogus and unfounded based on lies and manipulation of facts.

23. I urge the Court to dismiss the claims of the Plaintiffs in its entirety with punitive cost.

24. That I swear to this Affidavit in good faith believing its content to be true in accordance with the Oath Act, 2004.

WRITTEN STATEMENT ON OATH OF GBENGA ADEBOLA.

I, Gbenga Adebola, adult, male, Christian, employee of the Defendant and Nigerian Citizen of 6 Yedseram Street, Maitama, Abuja, do solemnly and sincerely make oath and state as follows:

1. I am the Head of Corporate Communications Department of the Defendant, Mainstream Energy Solutions Limited, by virtue of which position I am conversant with the facts of this case as it relates to community relations, public notifications, and sensitization.

2. I am a member of the Nigerian Institute of Public Relations with over 20 years' experience in corporate and public communications.

3. That I have the consent and authority of the Defendant to depose to this statement on its behalf.

4. That I have read and understood the Defendant's Statement of Defence, and the facts deposed herein are within my personal knowledge except where otherwise stated.

— Read paragraphs 7

5. My department is responsible for all public communications, media campaigns, and sensitization efforts of the Defendant, including those relating to controlled water releases from Kainji and Jebba Dams.

6. Prior to every regulated release of water from the dams, the Defendant carries out extensive sensitization campaigns across Niger State and neighbouring communities, which include:

   a. Radio and television jingles aired on major stations;
   b. Newspaper publications and community announcements;
   c. Billboards, posters, and leaflets strategically placed and distributed in affected communities;
   d. Letters and notifications sent to local government authorities, traditional rulers, and community leaders.

7. In respect of the January and April 2025 water releases, my department duly engaged media houses, settled all payments for adverts and ensured that jingles and announcements were broadcasted ahead of the scheduled discharge.

8. The Defendant also organized stakeholder sensitization forums with community leaders and relevant government agencies before the release, to ensure that residents downstream were adequately informed of the risks and safety measures.

9. Our sensitization and public awareness drive include the following:

   a. Paid radio and television jingles;
   b. Banners and billboards;
   c. Leaflets
   d. Engagement with stakeholders

10. Several times, the Government of Niger State and relevant Federal Government agencies alongside with the Defendant have continued at all

times to discourage farming activities and habitation alongside to the waterways; however, the people have continued in defiance to the admonishment to practice farming and habit the terrain due to its alluvial nature.

11. The Defendant has always been professional, diligent, and people-centric in its approach to operations and community relations, and denies any suggestion of negligence.

12. I know as a fact that the Plaintiffs' allegations of lack of notice or sensitization are false, exaggerated, and contrary to the evidence of extensive campaigns carried out by my department.

13. Any damage allegedly suffered by the Plaintiffs resulted from:
    a. Their **continued occupation of flood-prone areas**, in contravention of advisory notices and relocation guidance issued by government authorities due to the alluvial nature of the water route to agriculture/farming and/or
    b. The **natural seasonal overflow of the River Niger**, a transboundary water body spanning over 4,000 kilometers, whose upstream and downstream dynamics are not wholly within the control of the Defendant.

14. The sum of ₦5,000,000,000.00 (Five Billion Naira) claimed by the Plaintiffs is Grossly exaggerated, speculative, and unsupported by empirical evidence.

15. The claims of the Claimant are gold-digging, blatant, unground able, obnoxious, bogus and unfounded based on lies and manipulation of facts.

16. I urge the Court to dismiss the claims of the Plaintiffs in its entirety.

17. That I make this witness statement in good faith, conscientiously believing the contents to be true and correct, in accordance with the Oaths Act, 2004.

WRITTEN STATEMENT ON OATH SHANONO BARA'U ABDULLAHI.

I, Shanono Bara'u Abdullahi, adult, male, Muslim, employee of the Defendant and Nigerian Citizen of 6 Yedseram Street, Maitama, Abuja, do solemnly and sincerely make oath and state as follows:

1. I am the Head of Community Relations Department of the Defendant, Mainstream Energy Solutions Limited, and by virtue of my position, I am directly involved in the engagement and liaison with communities downstream of Kainji and Jebba Dams. (14 years)

2. I have the authority and consent of the Defendant to depose to this statement on its behalf.

3. I am conversant with the facts of this case, particularly with respect to the sensitization, consultation, and engagement of host and downstream communities before regulated releases of water from the dams.

4. Before every controlled release of water from Kainji and Jebba Dams, my department coordinates and relate with local government authorities, traditional institutions, and community associations to notify and sensitize them of the planned releases and associated safety measures.

5. In respect of the water discharge operations carried out in January and April 2025, my department issued correspondences and notices to communities, traditional rulers, district heads and local chief of downstream communities:

   a. Conducted community sensitization meetings where farmers, fishermen, and residents were duly briefed;

   b. Distributed posters and leaflets in English, Hausa, Nupe, and other local dialects to ensure proper understanding by affected residents;

   c. Collaborated with religious and community leaders to pass safety information to their followers.

6. In addition to the above, the Defendant also engaged radio and television stations, erected banners, and held interactive sessions to further warn and prepare communities for the controlled water releases.

7. The Defendant in engaging with communities, traditional rulers, district heads and local chief, did the following:

   a. Conducted physical sensitization meetings;
   b. handed leaflets to community gatherings;

8. The Defendant has always prioritized the safety and wellbeing of downstream communities, and denies the allegation that residents were taken by surprise or not carried along in the process.

9. Any damages allegedly suffered by the Plaintiffs were either due to occupation of flood-prone areas despite repeated advisories, or due to the natural and seasonal overflow of the River Niger, factors beyond the Defendant's control.

10. The sum of ₦5,000,000,000.00 (Five Billion Naira) claimed by the Plaintiffs is grossly exaggerated, speculative, and unsupported by empirical evidence.

11. The claims of the Claimant are gold-digging, blatant, unground able, obnoxious, bogus and unfounded based on lies and manipulation of facts.

12. I urge the Court to dismiss the claims of the Plaintiffs in its entirety.

13. That I make this witness statement in good faith, conscientiously believing the contents to be true and correct, in accordance with the Oaths Act, 2004.

28th July, 2025

The Executive Director Finance,
Mainstream Energy Solution,
Abuja.

Sir,

PROPOSAL FOR AIRING OF RADIO JINGLE.

According to the prediction of Nigerian Metrological Agency (NiMet), about Twenty five (23) states in Nigeria will experience flood from the late month of July 2025 to late month of September 2025 and therefore urged the states to heed to the early warning so as to mitigate the effect of the floods

In order to sensitize the general public especially the numerous settlers in the remotes areas of Niger, Kebbi,Kogi and Kwara States; we write to request your esteem organization to sponsor the airing of sensitization Jingles produced in 6 languages (Hausa,Yoruba, English, Nupe Gbagy and Koro) to be aired in Prestige FM Minna, Prime FM Lokoja, Albarka FM Ilorin, Landmark FM Kontagora and Bayaura FM in Yauri Kebbi State.

Prestige FM Radio 91.7 Mhz Minna is owned by Wadata Communication Nigeria Limited and the Radio Station has wide coverage in the entire Niger central (Zone 'B' Senatorial District that include Shiroro Local Government, Jebba and part of Mokwa Local Government up to Lafiagi in Kwara State.

We provide below the cost implication and our account details for your perusal.
