NIGERIA DEMOCRATIC CONGRESS * ELECTORAL APPEAL COMMITTEE * Sign: Date: 24/9/26

1.0 INTRODUCTION

The Electoral Appeal Committee of the Nigeria Democratic Congress was inaugurated on 29th May, 2026 and sat to consider petitions and appeals arising from the Party primary elections. The Committee concluded its assignment on 30th May, 2026.

This report is prepared as a full and complete narrative report. It maintains the state-by-state presentation earlier adopted by the Committee, so that no complaint is omitted from the final recommendation. Each complaint is considered separately, on its own facts, merits and no petition is lumped together with another.

The Committee has treated the petitions received, the constituencies affected, the grounds advanced and the resolutions reached. Where a petition was supported by a field result, result sheet, documentary exhibit or independent verification, that material was given appropriate weight. Where a petition was unsigned, presented out of time, unsupported by evidence, brought by a person without standing, or sought relief outside the Committee's remit, the Committee resolved it on that basis.

2.0 APPROACH AND STANDARD OF REVIEW

The Committee approached its assignment as an internal appellate body of the Party. Its function was not to conduct a fresh primary election, nor to substitute speculation for field evidence. Its duty was to examine each complaint, identify whether the petitioner was properly before the Committee, determine whether the complaint was supported by credible material, and recommend the course that best protects the integrity of the Party's nomination process.

Member 24/09/26

In resolving the petitions, the Committee considered, among other things, whether the petitioner was an aspirant or a person directly affected by the primary; whether the petition was submitted within time; whether the petition was signed; whether the relief sought fell within the Committee's mandate; whether the allegation was supported by particulars; and whether any field result or result sheet was placed before the Committee.

The Committee also kept in mind that primary elections are the mechanism through which members of the Party express their choice. Where the authentic result of a primary was shown by credible documentary evidence, the Committee was slow to disregard it. Conversely, where a petitioner sought to unsettle a result without attaching sufficient evidence, the Committee declined to disturb the process.

Complaint: The petition concerned Isiukwuato/Umunneochi Federal Constituncy. The Petitioner complained as follows: Alleges the non-holding of election in isiukwuato/umunneochi federal constituncy in abia state

Committee's consideration: The Committee reviewed the allegations but found that they were not supported by sufficient particulars or documentary proof. Complaints of violence, manipulation, non-compliance or wrongful declaration are serious, but seriousness does not dispense with proof. The Committee required some credible material connecting the alleged irregularity to the actual result of the primary election in Isiukwuato/Umunneochi Federal Constituncy.

Resolution/Recommendation: The petition is dismissed for insufficient evidence. The Committee's resolution is: The petition is dismissed for insufficient grounds

5.21 Chief Nnamdi Iroh Oji - Abia North Senatorial District

Complaint: The petition concerned Abia North Senatorial District. The Petitioner complained as follows: Challenges the act of the Primary Election Committee for not announcing and handing over the result of the primary election.

Committee's consideration: The Committee considered the complaint as one touching directly on the integrity and finality of the result-management process. A primary election result that is not properly announced or handed over creates avoidable uncertainty and may defeat the will expressed by the delegates. The complaint was therefore treated as material to the nomination process.

Resolution/Recommendation: Accordingly, the Committee finds merit in the appeal. The petition is sustained.

Where the relief sought fell outside that remit, the Committee was bound to decline it.

Resolution/Recommendation: The petition is dismissed or declined for being outside the Committee's mandate. The Committee's resolution is: The petition is dismissed for being speculative, vague in nature and seeking reliefs is outside the mandate of the committee

The appeal mechanism is principally for aspirants or persons directly affected by the conduct or outcome of a primary election. Where a petitioner was not an aspirant, did not participate in the primary election, or suffered no personal electoral injury, the Committee could not convert the appeal process into a general political inquiry.

Resolution/Recommendation: On that basis, the petition fails for want of locus or participation. The Committee's resolution is: The petition is dismissed as the petitioner lacks locus. The reason being that he did not participate in the primary election.

26.0 GENERAL CONCLUSION

The Committee has now considered all petitions contained in the schedule, together with the more detailed reports already prepared in respect of particular Anambra State petitions. The resolutions reached are based on the materials placed before the Committee and the limits of its internal appellate mandate.

Where a petition was upheld, the Committee recommends that the Party should give immediate administrative effect to that decision and recognise the aspirant or relief indicated in the applicable resolution. Where a petition was dismissed, discountenanced or kept in view, the reason for that outcome has been stated under the relevant petition.

For ease of reference, a consolidated summary table is set out at Appendix A below. The table is not a substitute for the foregoing analysis; it is only a quick reference guide to the Petitioner, state, constituency and final resolution.
